

### MMFC Rules of fueling at KRCM

1. Refuel after each flight immediately.
2. If it is after KRCM line service hours then make arrangements to refuel club aircraft when line service first opens.
3. Immediately pay for the fuel.
  - a. Do not delay payment
  - b. Do not request line service worker split the payment up between members or different payment types. (If you split payment with another club member, the bill must be paid in full by one person. Then the split amount will be settled between members).
  - c. Do not make payment by phone unless it is emergency as KRCM line service has to pay more for this type of transaction.
4. If the airplane is unable to be filled immediately after flight, prior to the next flight, or first thing the next morning, then notify the club president and any other affected members who's next scheduled flight will be affected. Arrangements for fuel between members will be handled by members.
5. If members are unable to follow the above rules and fail to notify club leadership then a monetary penalty per incident will be assessed against offending members. Dollar value as determined by the board or club president.
